</div>

Duration

1 session

goals

• Knowing the calls of the European Union, including the program H2020

• Familiarize yourself with the platform of the European Union to search for calls, projects and partners.

Tasks and deliverables of this practice

one. Assuming for the project you have in mind I say search funding

European, seek a call which could fit the request on the website of the European Commission, if possible open:

https://ec.europa.eu/info/funding-tenders/opportunities/portal/

Deliver a snapshot with data call

2. Now seek projects that need partners in projects H2020.

In this case, we are thinking that we can incorporate as partners to an existing project, where you could work related to your subject, training and experience tasks. Elegid an open and in the "partner search" Be selective of any entity listed in display "request expertise" and the actions column, "partner search details" call. Introduce there mail and password that will be provided in class. After reading the offer, indicad if your team could be one of the partners seeking. Deliver a snapshot of supply and justify your suitability.

3. Search if the University of Granada has a cooperation project
require the use of ICTs with a non-European country. Usad links provided on theory or other.
Referencing with a link to a page that talks about such cooperation and resumid in a paragraph
consists of concrete.

Deadline

Until 25 October at 18.30.
